---

## SUMMARY

Experienced Front-end Developer with knowledge of React, Redux, and web development. Proven ability to develop efficient and scalable web applications. Applying for the position of full-stack web developer. Currently part of NeogCamp.

---

## EXPERIENCE

### Front-end Developer neogCamp

January 2023 - Present

- Enhanced website performance by optimizing the codebase and reducing load times, resulting in a 25% decrease in page load speed and an improved user experience.
- Streamlined UI/UX design processes, leading to a 20% reduction in design iteration time and ensuring timely project delivery.
- Created and maintained responsive web applications, ensuring compatibility across various devices and browsers, resulting in a seamless user experience for a diverse user base.
- Actively participated in code reviews, identifying and rectifying issues early in the development cycle.
- Implemented state management techniques using Redux, significantly improving data organization and retrieval efficiency, leading to a 40% reduction in data access time.

---

## PROJECTS

### Online Video Library

August 2023 - August 2023

- Developed a dynamic online video library using React, leveraging hooks for efficient state management and incorporating local storage for seamless data persistence.
- Spearheaded front-end development, crafting intuitive UI/UX for optimal user engagement and seamless navigation.
- Collaborated on architecture design, implementing React components to ensure smooth content rendering and interactive video playback.

### Harmony\_of\_Words - A MERN Stack Social Platform

neogCamp • July 2023 - August 2023

- Harmony\_of\_Words is a dynamic and feature-rich social platform meticulously crafted using the MERN (MongoDB, Express, React, and Node.js) stack. This project showcases my proficiency as a full-stack developer, highlighting my expertise in creating seamless and interactive web applications. With a focus on user engagement and streamlined functionality, Harmony of Words empowers users to create, share, and interact with posts while fostering a sense of online community.

### Curling\_Tails: E-Commerce Website

neogCamp • May 2023 - June 2023

- As a React frontend developer, I designed and developed a dynamic e-commerce website for pets and pet products using React JS and modern React hooks for state management. Implemented responsive UI/UX, optimized performance, and ensured seamless user interactions. I leveraged my expertise in React, JavaScript, and front-end technologies to deliver an engaging and user-friendly online platform.
